

450W Oscillating Spindle Sander

TSPS450

Triton's Oscillating Spindle Sander offers outstanding performance and a precise finish to every woodworking project. Stability and enhanced material support for larger stock is provided by the 370 x 295mm / 14-1/2" x 11-1/2" cast iron table. The oscillating action moves the drum up and down during rotation, reducing the static friction that causes burning and eliminates band marks. It also extends the life of the sanding sleeve by spreading the wear across a broader surface. Supplied with 6 sanding sleeves (13-76mm dia, 80 Grit), with matching rubber drums and table inserts, the Triton Oscillating Spindle Sander is well equipped to provide a professional finish to internal as well as external profiles. This also allows the matching of the optimum size of sleeve for the precise needs of each woodworking project.
